MARVELLOUS MAGENTA

This year's Pantone colour is magenta. Described as a 'nuanced crimson tone', this is a beautiful vibrant colour that needs to be used very carefully in your home so as not to overpower everything else. Why not try using some wallpaper with magenta in it on an accent wall in your home?

TONE THINGS DOWN

A great way of allowing yourself the ability to change up your décor according to the seasons and trends, is to ensure your sofa is a plain coloured fabric. That way you can add extra interest by mixing up your chairs, ottomans and scatters in an arrangement of patterns and plain fabric.

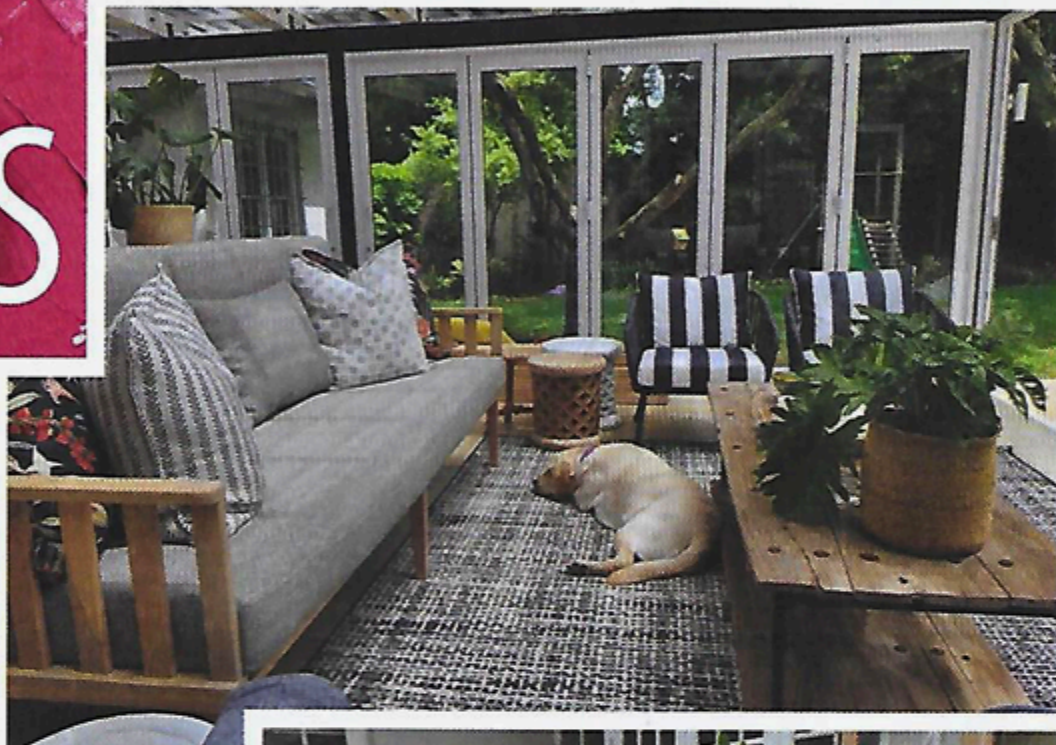

NATURALLY SHEER

When it comes to curtains, we like to keep things natural with sheer fabric on a wave tape finish, giving a modern look all the way through the home.

ABOUT MARTIN HARRIS FURNITURE AND INTERIORS

Although they are new to the North Coast having relocated here just last year, Martin Harris Furniture and Interiors is certainly not new to the industry. The business started in Johannesburg in 2013, initially just as an interior design company outsourcing upholstery, but evolved into a furniture factory a few years later. Martin Harris Furniture and Interiors offers a range of services, including new custom-made furniture, re-upholstery of existing furniture, custom-made occasional furniture and wooden patio furniture, wallpaper supply and installations, turnkey operations, curtains and project management.
